Put the card(s) in and power on

- 1 Insert the SIM tool into the hole next to the SIM and microSD card tray to pop out the tray.

Make sure you use the correct size of SIM card and don't cut the SIM card.

- 2 Insert the SIM card(s) with the gold contacts down, then gently push the tray into the slot.

Add a microSD card (optional, sold separately) for additional storage.

- 3 Press and hold the power button  to turn on your phone, then follow the prompts to get started.

To turn off your phone, press the power and volume up buttons  +  at the same time.

Energy label: the energy label and product information defined within Regulation (EU) 2023/1669 is available at <https://eprel.ec.europa.eu/screen/home>. Scan the QR Code on the in-box energy label to access the eco-design Product Information Sheet (PIS) within the EU Commission EPREL database.

Scan with your **Camera** app for how-to videos. Or visit motorola.com/g06/row.

Help and more

Get answers, updates and info:

- **Help is here:** from the Home screen, swipe up and tap **Settings > Help** to learn how to use your phone and get support.
- **Get more:** get software, user guides and more at www.motorola.com/mymotog.

Legal information. This guide provides important legal, safety and regulatory information that you should read before using your product. For the complete legal information, from the Home screen, swipe up and tap **Settings > Q**, then type **Legal information** or visit www.motorola.com/device-legal.

Dust and water resistance. For detailed information about your phone's dust and water resistance design and care tips, swipe up and tap **Settings > Help**, or refer to the *user guide*.

Charging and battery safety. The battery in your phone can be removed by suitably competent individuals following Motorola-approved repair and service manuals. To prevent possible burning and injury, always follow the instructions provided. If your phone becomes unresponsive, press and hold the power button until the screen goes dark and your phone restarts.

The power delivered by the charger must be between min 5 Watts required by the radio equipment, and max 10 Watts in order to achieve the maximum charging speed. The phone does not support USB PD fast charging. Charge your phone using a compatible Motorola charger and cable. Both may be sold separately. Other compatible chargers and cables may be used to charge the device. However, use of such chargers or cables is not recommended and may result in slower charging speeds.

Chargers that do not comply with applicable national standards may be unsafe, with risk of death or injury, and may cause slow charging or product damage. Don't charge your phone in temperatures below -20°C or above 45°C. To view applicable standards and to learn more, see the "Legal information" section of this guide or visit www.motorola.com/device-legal.

Warning about high volume usage. To prevent possible hearing damage, do not listen at high volume levels for long periods. When your headset volume reaches the high volume threshold, a warning will be shown. Tap **OK** to dismiss it, or wait one to five seconds, then press the volume up button to dismiss the alert and enable the volume to continue to be adjusted.

Disposal and recycling. Don't dispose of your battery or mobile device through your household waste. For help recycling products and packaging responsibly, visit www.motorola.com/recycling.

Extreme heat or cold. Don't use your phone in temperatures below -20°C or above 45°C. Don't store or transport your phone in temperatures below -20°C or above 60°C.

Legal disclaimers. Features, services and applications are network dependent and may not be available in all areas; additional terms/charges may apply. Product specifications and other information contained in this guide are believed to be accurate at the time of printing or release. Motorola reserves the right to correct or change any information without notice.
