

#### FIRST TIME INSTALLATION

Please insert the batteries into the Remote control unit, arrange the necessary connections and plug in the unit to mains. The installed TV Antenna should guarantee the minimum signal strength not less than 60% and the signal quality not less than 80% according to the device indicator. Please check the full user manual for details. If you are using the unit for the first time or after restoring the factory settings, the installation guide will appear on the TV screen if the device connected properly.

Follow these steps using Remote control Unit:

Select the language, select the country of residence, further select the channel search and press OK. The unit will start searching for available TV programs and will save the list in the memory, once found. For detailed function description please check the full user Manual. Please use the Password 000000 for restoring the factory settings. The master unlock password is '888888'.
