Highlights

22 delicious coffee varieties

Discover a world of coffee to delight every craving and match any mood, with 22 delicious varieties to choose from. From more familiar recipes such as Espresso and Cappuccino, to specialty coffees like Italian Espresso Macchiato and Flat White.

6 User Profiles

Everyone's custom coffee favorites can be saved in up to 6 user profiles for instant selection on the high-resolution touch display. Easily personalize each profile down to the finest detail.

BeanMaestro

BeanMaestro automatically adjusts brewing settings to get the very best flavor and aroma from your chosen coffee beans. Simply select the type and roast of your beans and let BeanMaestro do the rest.

CoffeeEqualizer Touch+

Create your own favorite recipe with CoffeeEqualizer Touch+. Personalize your coffee to your precise taste preferences by customizing the strength, coffee and milk volume, temperature, taste, amount of milk foam, and even the order of the coffee and milk. If desired, you can use the ExtraShot function to boost the coffee intensity.

5.4" Color touchscreen display

Advanced 5.4" high-resolution color display features an intuitive touchscreen user interface, to master your coffee varieties with precise interaction.

Built-in connectivity

The machine includes built-in Wi-Fi connectivity to ensure no part of the process is overlooked, with enhanced user features seamlessly controlled from the machine's display and to see availability of consumables at local retailers. Regular updates are based on software enhancements and machine learnings, always striving to improve and enrich your experience and help you get the very best out of your machine.

Attentiveness

The machine will learn your preferences and notify you with exclusive, personalized recommendations to help you discover new coffee recipes, as well as different features and functions of your machine.

CoffeeMaestro

Effortlessly personalize your perfect cup with CoffeeMaestro. Simply select your desired taste profile from 3 pre-sets - Delicato, Intenso, Forte. The machine automatically adjusts the brewing settings like strength, coffee volume and pre-wetting time, to serve you just the right taste.

LattePerfetto

The external milk carafe with our LattePerfetto technology creates a dense milk foam with a fine, silky texture.

LatteDuo

Prepare and enjoy single or double servings of your favorite coffee recipe with just one touch, including Cappuccino and Latte Macchiato.

Maintenance Dashboard

Check your machine and cleaning status easily through the color-coded intuitive dashboard on the display. The dashboard will give you a helpful overview and notify you with status information on things like your water level or if the AquaClean is running low.

100% Ceramic Grinders

The best flavors and aromas are extracted from your beans with our most durable grinder. Made with 100% ceramic to be exceptionally hard and precise, and last for at least 20,000 cups of delicious, freshly ground coffee. Easily adjust the grinder to your taste with 12-step levels.

AquaClean Water Filter

AquaClean is our patented water filter, designed to improve the quality of your coffee with purified water and prevent scale build-up within the machine. Make up to 5000* cups without descaling by replacing the filter regularly.
